"THE ARRIVAL OF KITTY"

Presented by the Lacombe Dramatic Club, in the Comet Theatre on May 19th, was received with great applause, and continuous laughter, by one of the largest audiences ever present at a similar entertainment. It would be difficult to say which character was best represented, so well did each act. Mrs. Hunter, who coached the cast, is to be congratulated in the results and should feel well rewarded for the time and pains that she has taken with the players. The players were able to enter into their parts, and needed little prompting. Even "Bunny" the canine was perfectly at home on the stage.

The stage was made very attractive, with rugs, flowers, new furniture, and other features. The front of the stage was decorated with evergreens by Mr. Wm. Berggren, who is an adept at such work. Mr. Hearsey gave great assistance with the lighting. Between acts Prof. Touche, with his orchestra, twelve being present, pleased the audience with stirring music, and little Margaret Watt added to their enjoyment with a violin solo.

The only drawbacks to the evening were the scarcity of seats, many having to stand, and difficulty in hearing all the lines. The following took part: Mr. and Mrs. H. R. Lackey, the Misses Clara Douglas, Marjorie Fewell, and Genevieve Willis; Messrs. George Grover, Joseph Lahiff, and Donald McEwen; and Rev. R. B. Layton. The play is booked for Bentley and Ponsonby. It is expected that Mr. and Mrs. Lackey are soon to remove to Castor, where Mr. Lackey is to act as Manager for the McDermid Drug Co.

Mr. Layton wishes to thank all who assisted in making the play "The Arrival of Kitty" such a success in Lacombe. The players appreciate the splendid reception given by the large audience on Monday night. Lacombe certainly stood behind their effort, for which they are grateful. Too much cannot be said about the attention that Mrs. Hunter has given to the preparation of the play, and thanks are also due the players, who made many sacrifices during the past week in rehearsing. The efforts of the decorators, Messrs. Berggren and Hearsey, are also appreciated. And we are grateful to Professor Touche and his orchestra for their music. Others have made contributions of time and other things to whom we give thanks.

The funds of the Camp are largely increased, the exact amount is not known at this moment. It will be announced later.

APPLE BLOSSOM DANCE

All arrangements are now completed for the pre-dinner affair of the season, "The Apple Blossom Dance" of the Anglican Young People's Association, to be held tomorrow night, (23rd), in the Comet Theatre. No amount of work has been spared in the making of the blossoms and we are sure that dancers will get a joyful surprise when they view the beautiful decorations. Hours of hard work were required to make the required number of blossoms, and the young people are deserving the utmost support in appreciation of the efforts they have made to make this an event long to be remembered in Lacombe. Mr. Allan, of the Red and White store supervised the work of arranging the blossoms and stage and now the hall is beautiful beyond words. Those who do not wish to dance, will get the worth of their money enjoying the music amid the lovely surroundings. Dancers will also enjoy the dance more because of the beauty of the hall. Music will be furnished by the "Star" 5-piece Orchestra, and they have arranged a programme of dances to suit everyone. Refreshments will be served promptly at mid-night, and dancing will continue till 2:00 o'clock a.m. By all means attend this dance—you will enjoy it.

THE LACOMBE GOLF AND COUNTRY CLUB

Are having a mixed foursome on Saturday afternoon May 24th. All members should be on hand at 2:00 p.m. The course is in splendid shape and the Ladies have made a wonderful improvement in the Club House, which is now attractive and comfortable.

Have you paid your fee?

LIBERAL AND CONSERVATIVE CONVENTIONS

The Liberals and Conservatives of the District held their conventions in the Avalon Theatre on Monday afternoon last, the Conservatives at 2 o'clock and the Liberals at 3. Both conventions were well attended, and after considerable consideration both the old parties came to the same decision—that they would leave the field open. Officers were elected for the ensuing term.

MISS FLORENCE HALL AND WALTER TAYLOR WIN AT EDMONTON

Two of Lacombe's young musicians carried off high honors at the Musical Festival at Edmonton this week. Miss Florence Hall, in a class of eight, carried off the Gold Medal in the Soprano class (16 to 20 years). In awarding the prize, the judge was high in his praise of her splendid voice and technique. Walter Taylor came second in the Violin class, being just one point behind the winner. He also came in for much praise. Both the above musicians were pupils of Prof. Touche. They will also

CLIVE NEWS

The play entitled "The Arrival of Kitty" was well presented to a good sized audience by the Lacombe Dramatic Club on Friday, May 16 in the Community Hall. Each character portrayed splendidly the character she or he represented. They were all "hitting on high". The comedy was clean, wholesome, side-splitting and highly entertaining from beginning to end. The proceeds of the play is to be expressly used for the improvement fund of the Boys' and Girls' Camp at Meridian Beach, Gull Lake. It is to be hoped that this play will receive the heartiest response wherever it is presented, because, first of all it is worth it and secondly it is being used for a worth-while purpose. We extend our congratulations to the players and wish them continued success.

The Camp commences for the boys the beginning of July and the Girl's Camp immediately following. Look for further particulars. Full information may be received from Rev. R. B. Layton or Rev. I. N. Hugheson, Camp Directors.

ST. ANDREW'S UNITED CHURCH

Rev. R. B. Layton, B.D., Minister Services at 11 a.m. and 7:30 p.m. Rev. Peter Bryce, D.D. of Toronto, will speak on Sunday evening. He is in Alberta to attend the Conference, which meets on May 27th in Edmonton. Services at Jackfish on Sunday at 3 p.m. Mr. Layton will attend the Conference next week.

CROP PROSPECTS PROMISING

For the next ninety or one hundred days, Alberta's keenest concern, even taking provincial and federal elections into consideration will be its crop and livestock situation. Our basic industry is agriculture and our economic welfare depends in greatest measure on the condition of this industry. It is, of course, far too early to estimate what the farm production may be this year, but it is satisfactory to record that not since the province was created in 1905, have the seeding moisture and germination factors been more favorable than they are at present. Snow and rain, falling generally throughout Alberta this spring changed a condition which was not reassuring in respect of moisture into one that is highly promising. Not only have the field crops been helped by the precipitation but pasturage has been improved and a heavy growth of grass is assured on the prairies and the foothills of the province. To the livestock branch of the agricultural industry an ample supply of natural food for cattle, horses and sheep, is a prime requisite. Dry years work havoc with the value of our range animals.

Western Canada has passed through a trying six months, due to market collapses and the absence of the usual winter grain movement. Indications are found that a more normal condition is approaching and it is probable that next autumn in any event a heavy grain crop of good quality and a favorable livestock season will result in a large revenue coming to Alberta and a general improvement in business as well as agrarian conditions. This is the prospect today.

GOLF TEA

Everyone is cordially invited to attend the first Golf Tea of the season on May the 24th, at the Club House. The view alone is worth coming for and the ladies are planning a very enjoyable afternoon. If those having no way of going up will telephone the Secretary, Mrs. McCormick, she will have someone call for them.

An important meeting of the Ladies Golf Club will be held at the home of Mrs. McCormick on Monday evening, May the 26th, at 8:30 p.m. to consider some matters relating to the Club House and also appoint a new President to succeed Mrs. Lackey who is leaving us shortly.

BAPTIST CHURCH

Sunday School and Bible Classes, at 11 a.m. The Gold and Silver airplanes are still on their journey round the world. A keen interest is being aroused by this contest.

At 7:30 the pastor will preach on "The Joy of Jesus", a subject out of the ordinary. You might come and hear this sermon. Prayer meeting at 8 p.m. on Thursday—Men ought always to pray and not to faint. Are you a praying person? Come and you will do us good.

This church has a hearty welcome to strangers.

Of Vital Importance to Everybody!

"It costs the farmers of Manitoba twenty-five millions of dollars per annum for the privilege of growing weeds," says T. J. Harrison, Professor of Agronomy, Manitoba Agricultural College, Winnipeg. "The problem of weed control therefore is of vital importance to everybody concerned with agriculture."

Imperial Oil Limited offers its free book "Weed Control" to every farmer interested in the suppression and ultimate extinction of noxious weeds.

This book has been prepared and is now being distributed with two objectives in mind. One is to impress on Canadians the extreme gravity of the weed situation. The other is to familiarize farmers with the methods used by those who have fought and conquered this greatest of land evils.

The most severe losses suffered by Canadian agriculture during the past twenty years have been caused by the invasion of our fields by noxious weeds. These weeds have spread over Canadian farm lands—choking and destroying crops. So serious indeed had weed infection become in some sections that many farmers have been forced off their land.

Wherever weeds have been permitted to multiply and flourish, losses have been sustained. That is why it is so important to deal with them NOW. And that is why the Imperial Oil book "Weed Control" can be of great service

to every farmer who intends this year to begin a definite, well-planned program of weed eradication.

The Honorable Duncan Marshall, former Minister of Agriculture for Alberta, is the compiler and editor of this interesting volume. Practical farmers, agricultural schools, experimental farms and weed authorities in every section have contributed to its pages.

By filling out and mailing the attached coupon, you will receive your free copy of "Weed Control" without delay.

IMPERIAL OIL PRODUCTS FOR FARM USE

It is always good business to use the best gasoline, oils and greases. Poor petroleum products are wasteful. Imperial Oil Products cost less than unknown, inferior products because they render better service. Make sure of full value—buy Imperial.

Budget is Misleading

The misleading nature of the Dunlop budget with regard to its two main provisions, the countervailing duties and the extension of the British preference, is becoming more apparent. The Globe has already pointed out that the countervailing plan will have little effect on the trade of the United States. Of the eighteen items specifically mentioned, seventeen are associated with agriculture. According to government trade returns for 1927, Canada exported \$33,000,000 of these products to the States and in return that country shipped less than \$5,000,000 worth to Canada. Of certain commodities specifically marked out by Mr. Dunlop, not one dollar's worth entered the country three years ago, and the situation is not greatly changed since.

The same condition prevails with regard to many items included in the new British preferential list. In his analysis of the budget statement in the House, Mr. Bennett exposed the fact that many of these articles are not exported from Great Britain to Canada. He showed that last year this country purchased from Great Britain articles mentioned in the new preferential list as follows:

Cattle, hogs and sheep, none; buckwheat, corn meal, rye, hay, potatoes, rice, bran, none; barley and oatmeal in very small quantities; fresh meats, \$29,246; canned meats, \$54,666; mushrooms, beets for sugar, tomatoes, asparagus, beans, brussels sprouts, cabbage, carrots and beets, cauliflower and egg plant, celery, cucumbers, lettuce, parsley, green peas, rhubarb, spinach, watercress, none; pumps and vacuum pumps, dictating machines, electric vacuum cleaners, clothes wringers, road paving machines, electric dental machines, none; scythes, fanning mills, windmills, hay presses, mowing machines, hay loaders and several other implements, none.

This table goes far to justify an eastern writer's claim that the King government is trying to fool the electorate by claiming that a preference is given where there is no preference at all. The extension of the preference will not help British industry much nor hurt American trade seriously.

China Asks Assistance

The fact that the Chinese Government has appealed to the League of Nations health organization for advice and assistance in building up a public service is significant as indicating the further awakening of China but from the point of view of the League it is an important step in establishing the position of the latter as a world-wide and not merely a European association of states of equal value to all its members.

The health organization has long been equally active in all five continents, but this is the first time that a great non-European state has realized the membership of the League affords it facilities in the solution of its own internal problems of re-organization and reconstruction. It is important to realize that the machinery of the League is equally at the disposal of all the members, and

Brewing is an Important Industry in Alberta

EXCELLENCE

The Brewing Industry is an important factor in the industrial life of this Province.

It is hardly necessary to emphasize the millions of dollars which have been invested throughout Alberta in this industry.

Hundreds of Albertans enjoy steady employment throughout the year in the brewing, storing, transporting, of the products of the five great modern breweries of Alberta.

Alberta Brewery Products are served by the bottle or glass at hotels. Sold by the barrel or case from our warehouses.

Permit holders are reminded that our warehouse will be closed Saturday, May 24th. Order holiday requirements early.

Who Told You

"IT IS A GOOD CAR"?

There is only one man competent to give advice in the purchase of an automobile—that is a man who knows automobiles. It may be that you are such. If you are, you realize that "a good car" is a better car if bought from a responsible dealer. You know that the dealer is the owner's only source of contact with the car builder, and the only local responsibility that the car buyer has for the security of his investment.

League officials are the civil servants of every Government member of the League for the purposes laid down in the covenant. Through the League, governments can get the tools they require—the experts, technical advice and assistance, etc.—and established relations of confident co-operation with other governments for their common ends, by virtue of their common membership, on terms of equality and without incurring the risk of any extraneous obligations or conditions.

One of the purposes laid down in the covenant is co-operation in matters of public health and it is gratifying that the Chinese National Government should have asked the League for technical aid in its great work of building up a united, modern and free China.

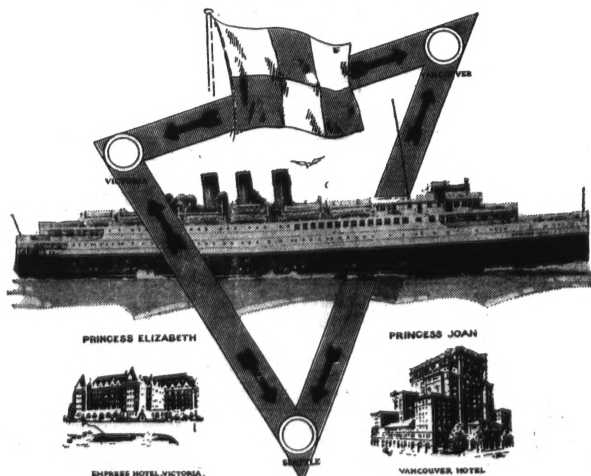

The Chinese Government asks for the advice and technical assistance of the League for certain limited and well defined activities. Their object is largely sanitary, that is, to find what are the methods best suited to Chinese conditions and to set up working models for adoption on a wider scale as fast as circumstances permit.

BABY CHICKS
The hens that lay are the hens that pay. Get pure bred Single Comb White Leghorn Baby Chicks from high producing hens. May chicks \$18.00 per hundred; June \$15.00, 100 per cent arrival guaranteed. We pay express. Mrs. C. Beck, Phone 91—1731 Red Deer.

NOTICE
This is to certify that the Town of Lacombe has not granted any relief to Mr. Chas. Hubbard and family neither were they ever requested to do so.
Lacombe, Alta., May 14, 1930.

POTATOES—POTATOES
Good table and seed potatoes, \$1.90 and \$1.80 per bushel. Buy yours now. S. M. Murray.

Look To Record Season

Prepared for the coming annual invasion by thousands of tourists from Canada and the United States, the British Columbia Coast Steamship service of the Canadian Pacific Railway will have in service during the coming summer in Washington, British Columbia and Alaskan waters, nineteen passenger vessels, two of them brand new, the whole fleet representing a total of 58,346 gross tons, accommodation for 17,274 passengers with 3,247 beds in 1,591 state-rooms and dining room accommodation for 1,729.

These twin-screw oil-burning ships which recently turned in spectacular performances in their trial runs, have a total of 816 beds in 420 state-rooms and on day runs will increase the fleet's carrying capacity by a total of 3,000 passengers.

Resources Issue

The prospective transfer of the control of natural resources to the province makes it desirable that the general election should be held this year, rather than that the legislature should have lived out its full term. A new situation is thereby created, and responsibilities of an entirely new character and of the greatest importance are to be assumed by the provincial administration. The transfer of the resources is the most important incident in the history of the province. It involves the creation of an entirely new branch of administrative authority, and the laying down of lines of policy in keeping with which the management of the resources is to proceed. The responsibilities of the government of the province, it may be fairly said, are to be doubled by the assumption of these new duties.

Very fortunately, the terms upon which the transfer is being made are such as to meet with practically unanimous approval. There is no question of haggling between the province and the Dominion, and no question of the conditions being made more or less favorable whatever government may be in power after the election. There is no opportunity, therefore, for the introduction of any "provincial rights" or anti-Dominion issue into the contest.

What the voters may expect, and what they are entitled to demand is that each of the parties that is asking for the privilege of undertaking the direction of provincial affairs shall present clear-cut statement of the objectives with which it proposes to manage the resources and of the methods by which it proposes to achieve these objects.

So far as the resources enter into the controversy, and they should get a very large measure of attention, the campaign should thus be one of constructive rather than critical discussion. And so far as this issue effects the outcome, the advantage will lie with the party that can present the sanest program for the all-round development of these great latent assets.

CABINET CHANGES

OTTAWA, May 19.—The House of Commons today will begin again to the task of considering the budget resolutions. It did not make very much progress Thursday night, or Friday, but it is likely that these resolutions will move along more expeditiously this week. There seems to be a fairly general confidence that the House will complete its work by the end of this month, which will make it possible to bring on the general election near the end of July or early in August.

Earlier plans were that the House would be asked to ratify the London naval pact on Tuesday, but it now seems probable that this will be put over until a later date. The pact was brought into the House by Premier Mackenzie King last week.

The supplementary estimates, which will no doubt be quite heavy, will probably be brought down this week. About half of the main estimates still remain to be voted, and there are many possibilities for delays over the estimates unless an agreement among the parties is arrived at.

The bill covering the changes recommended in the Pensions Act, is another important bit of legislation scheduled for this week.

The third reading of the liquor clearance bill is the most interesting of the program before the Senate which resumes activities on Monday night. The debate is to come up on Tuesday afternoon and will be eagerly awaited.

After a heavy week the Cabinet dispensed with its usual lengthy Saturday meeting.

Rumors still are active as to cabinet changes. There is a report that Hon. Dr. J. H. King, Minister of Pensions and National Health, may decide to accept the British Columbia vacancy in the Senate. Developments during the past week have not indicated any other changes in the ministry with the exception of the addition of the minister.

ONTARIO GOVERNMENT WILL SUPPORT CONSERVATIVES

LONDON, Ont., May 17.—The Ontario government will throw its whole weight into the Dominion election campaign in protest against the utterance of Premier W. L. Mackenzie King in the House of Commons that he would not "give a five cent piece" for unemployment relief to a province governed by a Conservative provincial administration. In making this announcement before the Western Ontario Conservative convention yesterday, Premier G. Howard Ferguson stated that his administration had been "driven into" the election by reason of the statement of the Prime Minister who he charged had "degraded" his office.

"The Prime Minister of Canada," Premier Ferguson declared, "said to the public on the floor of the House of Commons that he was not as I say, you are not entitled to any advantage that may come from the Dominion treasury." When a Prime Minister so degrades the position he occupies as to stoop to a lower level of public morality than is heard in this country or any other country, particularly Anglo-Saxon, as to say he will not give a five cent piece unless you support him and his party, that is a lowering of public morality that the Canadian people

will resent more than they will the tariff issue. I believe that issue is much more important today than any problem for the country.

Here and There

Contracts are let and grading has been started on three additional branch lines of the Canadian Pacific Railway covering 145 miles in Saskatchewan and Alberta. It is announced by the company's engineering department. These new sections of railroad will provide facilities for passengers and freight into one of the richest agricultural areas now under settlement and will give encouragement to farmers already settled in the areas affected.

With 1,969,200 pounds more fish landed in Nova Scotia during March, 1929, as compared with the same month of the previous year, fishermen of the province received a total of \$48,424 for their catch, according to the monthly report of the fisheries branch of the Department of Marine and Fisheries. Total quantity landed in March was 9,473,000 pounds.

The new Montreal Harbor Bridge, a two-mile span across the St. Lawrence River, built at a cost of \$12,000,000, will be formally opened on Victoria Day by Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada. This bridge, work on which was commenced five years ago, is one of the longest and largest in the world.

Marquis wheat still constitutes more than one-half of the western grain crop. This is shown by the test samples taken from 48 cargoes of Canadian wheat exported to England in 1928-29 and reported by the Dominion Department of Agriculture. The tests were made at the Dominion Experimental Farm at Brandon. From samples collected by the Canadian Co-operative Wheat Producers at export ports.

SEED POTATOES SALE
The Experimental Station has a limited surplus of seed potatoes. Priced at \$2.00 per bushel F.O.B., Lacombe.

SEED POTATOES
For sale at Fred Fisher's. Phone 320.

Home nursing, needlework or housework by day or hour by competent party. Apply to White Laundry, Nanton St. or phone this office.

French River, Home of Wiley "Muskie," Will Soon Echo Cries of Elated Anglers as They Battle Fresh Water Tiger

524

A BIG "MUSKIE," FRENCH RIVER.

A BIG "MUSKIE" AND HIS CAPTURE.

BUNGALOW AT FRENCH RIVER.

ONE OF THE MOST INTERESTING FISHING SPOTS IN NORTH AMERICA IS FRENCH RIVER, ONTARIO, 215 MILES NORTH OF TORONTO ON THE CANADIAN PACIFIC RAILWAY. THIS LORLY RIVER IS CELEBRATED AS THE HABITAT OF THE FIGHTING MUSKELTONGUE, ONE OF THE GREATEST FISH KNOWN; HUGE GREAT NORTHERN PIKE, PICKEREL, AN ABUNDANCE OF SMALL-MOUTH AND LARGE-MOUTH BLACK BAS AND OTHER "FINNY" PRIZES. TO ACCOMMODATE SPORTSMEN AND THEIR FAMILIES, A FINE BUNGALOW CAMP—A COLLECTION OF INDIVIDUAL CABINS CENTERING AROUND A MAIN CLUBHOUSE—HAS BEEN ERCTED ON A CLIFF OVERLOOKING THE RIVER. HERE THE FISHERMAN AND HIS FAMILY CAN "ROUGH IT IN COMFORT," FAR FROM THE CARES AND ANNOYANCES OF A WORK-DAY WORLD.

That big "muskie" are plentiful at French River is proven by the fact that one recent summer a monster muskie weighing 55 pounds was taken in the North Channel at the mouth of the Waseley River. Also, not long ago a party of Ohio sportsmen caught, besides their daily limit of bass, pike and pickerel, no less

than seventeen "muskies" ranging from 10 to 28 1/2 lbs. In 1926 a "muskie" of 35 pounds weight, 50 inches long and 21 inches in girth was taken in the main channel of the French, one mile from the bungalow camp.

The French River Bungalow Camp will open June 15 and remain open until Sept. 15. Jack Strathdee, its general manager, is an experienced outdoorsman whose chief delight is coaching the uninitiated in the art of luring the fish. French River also has a fine 9-hole golf course so that devotees of the royal and ancient game who are also fond of fishing need not entirely forego the former sport in favor of the latter.

SURPRISE your family and friends with desserts and salads of new deliciousness made with the aid of the Frigidaire Cold Control and Frigidaire Hydrator. Come in for a demonstration. Frigidaire operates from either central station current or an individual electric plant.

Makes Pastry Delicious—Ensures Success

Down Hearted and Lonely

To a widow's Grief is always added Worry. There are funeral expenses to pay; doctors' bills; and legal costs—these are the common lot.

But the farmer's widow has handicaps unknown to even the most unfortunate of her city sisters. For the seed is unsown; or the crop unharvested—and that means hiring help. And there is the interest on the mortgage—and little to meet it with. And there are implements to buy; stock to purchase; seed to obtain—

Sell? But it is the wrong season, and if she moved to town, for what task is she fitted and where could she go? No! Her whole hope of comfort and independence for herself and her children is on the farm—if only there be ready money to meet the immediate need.

And that is exactly what life insurance provides. Here is what a Sun Life of Canada policy assures: A man of 35, by payment of a modest premium yearly (decreased every year by dividends on the current scale starting at over \$65 the second year) can assure that his widow or children receive \$5,000 in cash at his death and, in addition, a minimum income of \$30 a month for five years while they gain experience and re-adjust themselves in the surroundings they know and love.

The Sun Life provides a policy to meet every need. Consult our representative in your district. It entails no obligation.

SUN LIFE ASSURANCE COMPANY OF CANADA

HEAD OFFICE - MONTREAL

Local Notes

The Annual School Fair program of Music and Public Speaking will take place in Lacombe on June 7. Teachers are requested to mail entries with name of selection chosen for each class to the Secretary, Mrs. A. M. Flewelling not later than Tuesday, May 28.

See the New Bentley Pump at Morrison and Johnston, Ltd.

Const. English, A.P.P., will take charge of the Lacombe detachment Provincial Police, vice Corp. A. Nalder, resigned. Const. English is well known to Lacombe citizens.

Colman Gas Ranges at Morrison and Johnston, Ltd.

Chas. Brock, Jewell, changes, the line we have handled for years is better than ever and we want you to see them if in need of a range of any size—at the Lacombe Furniture Store.

The Bentley players under the management of Mr. F. Thorp, are giving their entertainment, "Bought and Paid For," in the Comet Theatre on Monday, May 26, in aid of the Benevolent Fund of the West We Forget Club. This is considered the best play the Bentley Dramatic Society has ever produced. Buy your tickets early. Admission 50c.

We carry in stock Westinghouse Electric Ranges—Morrison and Johnston, Ltd.

Remember, Saturday afternoon, May 31st, in the Church Hall, the Guild of United Church will hold a tea, sale of baking and sewing, the latter to be useful articles of moderate cost. Contributions will be appreciated, and may be left with Mrs. Geo. Vickers or Mrs. L. Milliken.

The two-and-a-half-year-old daughter of Mr. and Mrs. Hugh Rowland gave the family and neighbors an anxious time on Monday night. While her mother was at a neighbors, the little one started out around six o'clock to see the world. Early in the evening her mother became alarmed and searched all around the premises and could not find her, and the neighbors were notified and a search party started out. Not having located her at 11 p.m., a call was put in for help from town and many responded, over a hundred neighbors and townspeople joining in the search. The whole country for miles around was gone over, and at one o'clock, the little wanderer was found by Paul Berth, asleep in the footpath on the old Armstrong farm, three miles from her home. She had evidently walked until exhausted and then fallen asleep. She was none the worse for her experience.

DOMINION LOSSES HEAVILY BY FIRE
Fire costs Canada approximately \$100,000,000 per annum. It is estimated that half of the \$2,000 fires which occurred in the Dominion during the year 1929 were preventable. During the same period fire was responsible for 1,414 fatalities and the property loss was nearly \$40,000,000.

These figures show the importance of fire losses in our economic life. The statement is made by those who should be in a position to know that for every hour of the day and night somebody's home or place of business is destroyed by fire in some part of Canada.

The fire loss problem is of vital concern to the business interests of this country, and the Canadian Chamber of Commerce is now undertaking a National Fire Prevention Campaign beginning June 1, and continuing until May 31, 1931. It is putting on a contest with a view to the stimulating interest in the prevention of fire losses, and it is asking every Board of Trade and Chamber of Commerce across the Dominion to take part in this contest. So that all may have an equal chance to secure the shields which it is proposed to present to the winners, the cities and towns have been divided into four different classes on the basis of population. The plan is to award the prizes on the basis of the greatest reduction of fire loss—the greatest amount of educational activity along fire prevention lines—and the most permanent structural and protective fire improvement secured by the Boards of Trade and Chambers of Commerce in the different towns and cities. Reduction in the fire loss will be based on the previous five-year average.

The Lacombe Board of Trade has decided to co-operate in this worthy movement to reduce fire losses and will no doubt receive the hearty support of the business men and home owners of Lacombe. The old saying that "prevention is better than cure" is certainly applicable to the prevention of fire, and reductions in fire losses together with preventive measures will result in the reduction of fire insurance premiums and avoid the necessity of employing larger numbers of men to fight fires.

Women's and Misses' Full Fashioned Hose for Sports Wear at 75c.

Many are choosing this splendid new full fashioned hose in preference to silk for sports wear with tweed suits, ensembles and sports frocks. It is an excellent quality rayon, full fashioned, and with French seamless foot. Shown in the popular shades.

New Printed Cotton Fabrics for Sports Ensembles, 45c. to 75c. yard

Good sturdy weaves for the coat and skirt of sports ensembles. Pique Waffle Cloth, Cotton Pongee and Ratine weaves, in novelty printed designs in fast colors. 36 inches wide.

Women's Printed Cotton Frocks \$3.95

There are very few women with so many frocks of this description but what will appreciate an opportunity to buy a couple or more of these at this temptingly low price. They are in smart practical styles, of good quality sturdy printed cotton fabrics in floral, novelty figures and spot designs in fast color. They are trimmed with solid color pipings and bandings, organdie collars, contrasting materials, and other effective touches. Some with panties to match. Sleeveless or short sleeves, flare or pleated skirts. Sizes 16 yrs. to 44.

Women's Fine Knitted Bloomers and Vests 50c. each

Women will instantly recognize these bloomers and vests as being very superior qualities and exceptional values.

The Bloomers are knitted of fine cotton and have firm elastic band at waist and knee, and reinforced gussets. Colors: Peach, apricot, white. Sizes 36 to 44.

The Vests are knitted of fine cotton with silk interwoven. Comes with open top and strap shoulders. Sizes from 36 to 44.

Smart Hats for Every Occasion

\$3.95 to \$7.00.

Hats for suit, for dress and for sport wear in bako, pedaline braids, pieo lucious, felt and straw combinations and stitched crepes. Assorted head sizes. All good colors. A number of these distinctive hats are priced less than half the former values.

Ladies' and Misses Shoes \$3.95

Graceful Pumps with and without buckle fronts! Chic new Ties with underlaid tongue effects or contrasting leathers! Strap Slippers in half-a-dozen or more styles with narrow or wide buckle, trimming, plain or with cut-out designs at the sides. They come in fine quality patent leather, black kid, black satin and fine soft finished brown calf leathers. Low, medium and high heels with good weight all leather soles. Beautifully finished inside and out. All sizes.

Women's New Pleated Triangle Scarfs for Sports Wear at \$1.95

These gay and colorful new Pleated Triangle Scarfs for sports wear come in heavy crepe de chine in sunburst pleatings, in such delightful shades as: Dahlia, apple green, copen blue, royal purple, dove grey, Nile, poudre blue, rose and beige, etc. They are worn as collars for sports frocks and pullovers or as a scarf with one's coat.

Children's Fine Silk Sox in all the Popular Shades at 50c. pair

The smartest little Sox mothers ever set eyes on for wearing with dainty summer frocks and party dresses. Of fine quality silk, in plain colors, with turn-over roll tops. In plain colors with English cuff in fancy contrasting patterns, also pure silk sandal sox. They come in spray nude, champagne, maize, orchid, mauve and peach. Sizes 5 to 7 1-2.

Forsyth Shirts \$1.45 to \$4.00

Collar attached or separate collar style in stripes, plain and fancy patterns. Broadcloths and Prints.

Blindman Valley Co-operative Association

The Blindman River joins the Red Deer River seven miles south of Lacombe, Alta. For 50 or 60 miles it traverses a country of great natural beauty. Two lakes, developed as summer resorts, grace the district.

But farmers cannot live on scenery. They have to dig their living out of the soil that supports it. The soil of Blindman Valley is supporting both it and the climate are well suited to mixed farming as well as grain growing. The settlers, who went in long before the railway, had to provide their own transportation while they were waiting for the steel. It is easier to transport livestock than wheat over a prairie trail, and being misty from the United States and Canada, they naturally and wisely, started from scratch with hogs and cattle. Of the two, hogs are the most important. There isn't a district in western Canada that can boast of more hogs to the square mile than Blindman Valley.

But the locomotive whistle didn't sound the death knell of their troubles. Until seven years ago their hogs and cattle were all marketed through drovers and packer buyers. The farmers knew that they were not realizing the full value of their stock, and so they decided to try marketing it through an association of their own. Five of them, Scandinavians all, who farm around Bentley, visited a district where such an association had been recently formed. They got all the information they could, brought it home, and proceeded to form a voluntary co-operative shipping association.

At first it was a success. The spread in price between the local point and the central market narrowed appreciably. The farmers were happy. It had all been very simple. All they had to do was to get together and ship co-operatively, and the diameter of the roll of bills they stuffed into their pockets when the returns came in was sensibly increased. But—

The "but" appeared in the form of one of the most astute packer-buyers who ever leaned over a fence, his two eyes sizing up a bunch of shoats, while his mind's eye searched for the weak spot in the owner's co-operative armor. He had hung the scalps of more budding co-operative shipping associations to his belt than perhaps any other man in the country. Voluntary co-operation is great in principle. As a theory it has all the perfection of a system of theology. As a faith it borders on the sublime. When it comes to works, however, it shows certain fundamental weaknesses.

ate with others, and ship in car lots direct to market.

The head office of the association is at Bentley. G. A. Wright is employed as full time manager. He is engaged from year to year, and is the only salaried official of the organization except sub-shippers, who are paid only for the days they spend loading stock. At the head office a first class book-keeping system is installed. It is open to any member at any time, and he has the privilege of seeing just how his stock is marketed from time to time, or at any time since the association was formed. Three times a year the accounts are audited by a chartered accountant, so that the management has at all times a full knowledge of the financial standing of the association.

The assets of the association are worth approximately \$10,000. They are all paid for. Liabilities are none. The association, therefore, has the comfortable feeling of being free from debt. The assets are composed of scales, yards, handling facilities, office furniture and cash. Since the commencement in 1925, the business turnover and the membership has increased steadily. In 1929 all previous records were broken both in volume of business and new membership. The stock shipped in that year totalled 24,240 hogs, 1,308 cattle, and 908 sheep, the total value of which was over \$580,000. Rimby is the largest shipping point; about one-third of the total shipments originated there. Bentley and Lacombe rank next.

Last year one producer shipped over \$17,000 worth of stock, and there are several men who run from \$3,000 to \$6,000 a year. The association is not made up of a few large shippers, however, but rather of a large number of small shippers. The strength of the association is in being organized over a comparatively large area. The total membership at the end of the year was 1,302, of which over 100 were active shippers.

Head office expenses, including the manager's salary, rent, depreciation, directors' expenses, annual meeting costs, and many other items totalled \$5,743. Loading expenses, which included remuneration of local shippers, totalled \$2,477.46. Head office income, including \$68.76 revenue from scale fees was \$7,316.32. When the office expenses were deducted, a balance of \$1,643.27 was added to the reserve, which amounts to \$9,474.20.

The association was linked with the Alberta Co-operative Livestock Producers, with a cross contract that expired at the end of last year. When the new three part contract, which includes a processing scheme, or to be more explicit, a pork packing plant to be built probably in Edmonton, was brought before the annual meeting January 13, it was rejected by the delegates. However, a temporary arrangement was made to continue to sell through the A.C.L.P. until its convention on March 5. The Blindman Valley Association hoped that some change in the policy would be made so as to enable it, and other shipping associations which were opposed to the packing house idea to continue with the provincial body. However, no change was made, and sales are now being made through other channels. The association is heartily in favor of centralized selling, but not of entering into the packing business.

Upon joining, a membership fee of a dollar is paid. The contract runs for three years, and is self-renewing after that. Seven directors are elected and they choose the president. R. E. Chown occupies that position. The natural layout of the district is all to the good from the viewpoint of organization. It is a distinct community, with a single outlet over one branch of railway. It was settled by progressive farmers who early got livestock around them. In seeking for a system to get that livestock to market they hit on the idea of organizing on a district basis with one association covering the territory around several shipping points. Experience has shown that in developing the district association idea they made a real contribution to co-operation. Their idea has been copied widely, in Alberta and the other two provinces.
